Disappointing Statement Carried Prices Downward.

DEALINGS PROFESSIONAL

All the News of the Day Was of an Unfavorable Character, and Effect Was Depressing on Prices-Bonds Were Sympathetic.

(By Associated Press.)

NEW YORK, June 29.—To-day's stock market made some headway against carly depression, which seemed to be reflected from London, but the disappointing banks' statement carried prices to below last night's lovel all around. The trading throughout was languld, and the movement of prices very sluggish, ery few trunsactions were of an origin putialed to be accorded to the United States Steel atocks and the coalers. The continuance of this year's schedule of prices for steel products and the announcement of the placing of large orders for steel products and the announcement of the placing of large orders for steel products and the announcement of the placing of large orders for steel products and the announcement of the placing of large orders for steel rails helped the steel stocks, and was an encouraging factor for the whole market. There were some special points of weakness, notably smelling. Its decline of 2 5-8 was due to disappointment over the failure of dividend action at the recent directors, meeting. The weather reporte from the corn belt and the firmness of the cereal markets as well as the raily in cotton had an unsatisfactory effect on stocks, and the reports of the danger of a passenger war in the northwest were not liked. The new steps taken in the suit of minority stockholders in Souther Pacific against the Union Pacific interests disposed of the supposition that this dispute had been compromised. Reports from Boston of a renewed outbreak of international dissensions over the control of the company. Instead of the expected increase of \$5,00, to the cash in the banks, the weekly statement shows a gain of only \$1.50, 500.

Bonds have moved in sympathy with tocks.

Bonds have moved to be stocks. United States 2's, coupon, and the new 4's advanced 1-4 per cent., as compared with the closing call of last week, Total sales of stocks to-day were 211,700 shares.

Wall Street Gossip. (Special to The Times-Dispatch.)

NEW YORK, June 20.—The opening of the stock market was tame and featurcless. The London prices, which were lower, had little effect, except to check outside interest, and the traders for the most part were operating very lightly in view of the uncertainty as to the bank statement.

Colorado Fuel and Iron was inclined to sail off, as the short interest which had been its hest support appeared to have been eliminated in the recent raily. It is thought likely that a clearer view of the company's financial affairs will be obtainable by Wednesday.

ANTHRACITE STOCKS STRONG: The anihracite stocks showed a Air amonat of strength, especially stere is a fairly strong section of the president element operating on the bull. It is claimed that the show-ling for May will be particularly good.

The United States Steel Issues opened bard, probably on the covering of stocks sold in London. The state opinion around the street is that the probable of the state of the state opinion around the street is that the probable of the state opinion would warrant, while the outlook for stability and activity in the corporations would warrant, while the outlook for stability and activity in the corporations.

FIRST HOUR'S TRANSACTIONS:

The volume of transactions in the first hour were smaller than in the corresponding period for a very long time past, and traders who adhitherto been willing to do a little seemed tired of buying and selling to said from each other. The changes were of very trining character. LONDON SOLD ERIES:

Some London selling was reported in the Eric Issues, and although it was not in considerable volume, had the effect of checking as stiempt to bid that stock up. The checking set stiempt to bid and stock up. The checking set stiempt to be an vactive bull account in Erics at present, apart from operations by the Hoffman house crowd, who are apt to chauge their positions at any moment.

THE SECOND HOUR:

In the second hour the market was dult, until the bank slatement brought in a few selling orders. The statement was less favorable
than the preliminary estimates, the increase in
leans cutting down the gain in reserve.

COTTON MARKETS.

NEW YOHK, June 20.—The cotton market opened steady at an advance of 1@8 points on better cables and talk of too much celd weather in the cotton belt, which led to covering winthout stimulating new speculative activity on the long side of the account; the public, if anything, being inclined to sell the new crop mouths on any railies. This morning the principal sellers were profit-takers, however, and the market varied but little from the figures after the first call.

TOWARD THE FRIARS

ROME'S TENDENCY IS

ROME, June 20 .- Father Vatmann has been in Rome for three days and is leaving immediately for the United States. He has been received by Cardinals Sa-

Ing immediately for the United States. He has been received by Cardinals Satolli and Rampola and by the Pope. He says that he has been received cordially everywhere, but it is believed that he has not made a good impression generally or the ecclesiastical authorities.

He has spoken ungererously against the friars of the Philippines, whereas the tendency in Rome is distinctly in favor of retaining them as far as possible. The Sacred Congregation for Extraordinary Ecclesiastical Affairs, which is the chief authority on the religious situation in the Philippines, contains a majority of cardinals belonging to the religious orders. All the cardinals are growing more and more concerned about the fate of the church in the archipelago, owing to the church in the archipelago, owing to the fact that there is not at present one-third of the number of priosts necessary for the Islands, and there is little prospect of finding them since the supply of regular clergy from Spain has ceased. It is announced here that Mgr. O'Connell, rector of Washington University, is oming to Rome at the end of the scholastic year to report progress to Cardinal Spielli. as Prefect of the Congregation. netle year to report progress to Cardinal Satolli, as Prefect of the Congregation

Satolli, as Prefect of the Congregation of Studies.
Cardinal Satolli has become Bishop of Frascati-one of the six suburban dieceses of Rome. It is likely that Cardinal Serafino Vannutelli, hitherto generally regarded as among the most "palpable," is to be appointed vice-chancellor of the Holy Roman Church, succeeding Cardinal Parocchi. This position is commonly regarded as sending its occupant into retriement, although technically it is the highest office in Rome.

REIDSVILLE, N. C., June 20.—The Southern is building a track to a point out from Stacy's, five miles north of here, where a very large supply of bullast will be obtained at a nominal cost. A large force of men have been at work and in a short draw the line will be completed. The St. Clair, Construction Company, of St. Clair, N. C., for a huge rock crusher, which will crush rock for the bullast on the new double track line, Stacy's is a splendid point, being right at any quantity of rock and in easy reach of a lons stretch of mileage on each isde.

The chief business up will be to elect a State library committee, which in turn will choose a librarian to succeed Mr. W. W. Scott, who will shortly resign. Several superintendents of county schools are to be elected to fill vacancies caused by death, and some action will likely be taken with reference to the book contracts, which expire on July 1st.

They will likely all be renewed.
